### ***INDEPTH***

Indepth is Shahar Melamed, 25 years old from Haifa. With one album out on Spiritual Beings records in 2004, another electro-breaks album out in summer 2007 on Sonic Dragon, and over 300 performances in less

than 3 years, Shahar is without a doubt one of the rising forces in the Israeli electronic scene. The story begins with Shahar's music being uploaded to the internet for fun. It didn't take long till a music critic from leading Israeli newspaper "Haaretz" did a feature about the site, and pretty soon Shahar was signed for an album deal. The first album was released and besides receiving great reviews and featured as one of the top 40 Israeli releases (of all musical genres) in a special edition of an Israeli paper. This album has also landed Shahar a slot as resident DJ of one of Israel's leading and longest running Club nights at LUNA club in Haifa. For over 4 years now, Shahar is resident DJ there, hosting the top names in electronic music from all over the world such as Infected Mushroom, Yahel and the list goes on, and has also performed anywhere that matters in Israel, including Oman 17, Maxim and Ultrasound and in top Festivals such as Love Parade, Doof and T.a.z festival. The performance list doesn't stop there – Shahar has performed live all around the globe, spinning in places like UK, Spain, Hungary, Portugal, Russia and France to name a few. Shahar's DJ sets are always diverse and fresh, fusing the best of genres like Electro, Minimal, Breaks and progressive house & trance grooves. Upcoming releases by Shahar Include the Double E.P "Disappear Here", which consists of one E.P of electro and progressive dance floor grooves, and the 2nd features a fresh new insight into breakbeat music. Also on the horizon are several releases which explore a more clubby, electro-house approach.

**KUKAN-DUB-LAGAN**

KUKAN-DUB-LAGAN is the project of Itay Berger. Itay is 31 years old and comes from Israel.

He started listening to trance music since he was 16 years old. Besides going to parties he sometimes also worked at parties as a sound engineer. His decision to make music was strongly influenced by his trip to Ibiza in 1997-8 and visited Juan's (Muses Rapt) studio. Since then he also started to dj in Israel and abroad at mostly underground parties along big names such as Dede (MDMA), Space Cat, Sunshay (COMPACT), Yaniv (Cosmophilia), The Delta, Future Prophecy, Yoda-P.Cok, Banzi (GMS) and others. During his travels also he djd in Cusco, Peru as well as in New York along with Total Eclipse.

His journey into chill-out djing started in 2002 in Israel.

Meanwhile he was signed by a UK techno-house label ([www.klubdj.co.uk](http://www.klubdj.co.uk)) as DJ ITAY for a year and flew to Japan to play at parties in Osaka and Kyoto. Returning back to Israel he enrolled to sound engineering college for one year and totally committed himself in music composition. Drawing from his djing experience, his early family musical influences as well as his own musical background he created 3 projects.

His prog psy project is ITAITAIKO, another project is RAIJIN GAIJIN (electro house tech) while his chill-out project is called KUKAN-DUB-LAGAN. It is a combination of three separate words : KUKAN, which means "space" in Japanese; DUB which represents the music style; and, LAGAN, comes from the word "balagan" which in Hebrew means "chaos". The music style can be best described as psy-chill free dub. In more simple words "sunshine music for smiling people" !!.
